

Menu

The Serenity Café first began in 2008 when Comas supported a small group of people in recovery from addiction to stage a series of club nights to help people overcome social isolation whilst facing the challenges of life without drugs and alcohol.

The club nights were a massive success and since then, a growing community of people worked hard to establish the Serenity Café we see today—a thriving community centre for people in recovery, with a public café staffed by volunteers in recovery gaining work experience and qualifications.

The members prices you see on the menu (M) are designed so that people on benefits can afford to participate in the community life of the café.

We are grateful that public customers accept the slightly higher non-members prices (NM), to help us survive and thrive, in conjunction with a range of grants from trusts and foundations.

If you would like to help us more, go to www.comas.org.uk/support-us
